

Cryptography Operations (AKA: Member-to-Member Messages)

Cyphers, Codes, Microdots...choose your method wisely and send your intel via our Agent Handbook (AKA: *Convention Manual*) Recognize a fellow agent for their effort, contribution, or skilled spycraft. Encourage burned agents with some kind words. Or share your favorite memories of espionage and intrigue!

Member-to-Member Messages are a wonderful way to publicly acknowledge club members, or express a private joke that only a few people will catch on to. Just imagine their surprise when they crack the code and find your messages waiting for them in the convention manual.

Only \$3 per message. Remember, there is a **25 word limit**, so practice your coding skills. But don't forget your 'To' and 'From' or the message delivery may miss your intended target.

Message 1:

Surely there is more than one agent on your force (or another!) that deserves some special attention.
You can't put a limit on spreading good news and cheer!
NO LIMIT Please attach additional sheets, if necessary.
